Introduction South Africa

Bordered by two oceans – the Atlantic and the Indian, South Africa is a fascinating country whether one focuses on its history, the diversity of its inhabitants' cultures, or the splendour of its landscape. .

The first Dutch sailors set foot at the Cape of Good Hope in April 1652, a first step that would eventually lead to three and a half centuries of conflict and violence, shaping the destiny of the people of South Africa. From the British occupation to the reign of the Great Shaka of the Zulus, from the Great Trek to the Anglo-Boer wars, from the official onset of Apartheid to the election of Nelson Mandela in 1994, history has left its mark in the memories of South Africans.

Now, however, South Africa is a democratic country of about 40 million inhabitants, and 11 official languages – Afrikaans, English, Xhosa and Zulu being dominant. To describe their country, Desmond Tutu and Nelson Mandela use the expression «The Rainbow Nation».

With its 3000 kilometre-long coastline, its tropical beaches, mountain ranges, bush areas and deserts, South Africa is also a land of natural beauties. Numerous National Parks teeming with flora and big game allow for many an opportunity to go on memorable scenic- and game-drives. Each and every area boasts a typical flora and fauna. Among others, one might expect to spot lions, cheetahs, elephants, giraffes, eagles and ostriches, seals, penguins, whales and many more. South Africa is a paradise for nature lovers.

Gary Player

Lost City Golf Course

Gary Player Golf Course

Lost City Golf Club

Sun City

Designed by :	Gary Player
Type :	Bushveld Golf Course
Holes :	18
Par :	72
Fairway Grass :	Kikuyu
Greens Grass :	Bent
Length :	Championship : 6983m Club : 6549m

The course was carved out of undulating and rocky terrain. Situated over a hill from the Gary Player CC, the Lost City's layout is different in character. With the wide fairways and receptive greens it is a fantastic golf experience for golfers of varying standards. The golf course covers more than 100 hectares and incorporates 28 000 square meters of water features - not surprisingly Golf Carts are compulsory. The Lost City Golf Course is an 18-hole desert-style golf course with spectacular views across the bushveld. Unique to this 72 par course are the real crocodiles at the 13th hole making this one of the most unusual golf resorts in the world, let alone in Africa. The desert style design of the golf course has an exotic allure all of its own and designer, Gary Player has acknowledged it as one of his favorite courses. The Lost City Golf Course is flexible: playing off the forward tee a course length of 5 953 meters, extending to 6 983 meters off the back tee. The course provides spectacular views.

Whether it's the allure of the African Bushveld or the fascination of this unique challenge, this is one golf course which will live forever in your mind as yet another memorable discovery with new world charm.

Gary Player Country Club

Sun City

Designed by :	Gary Player
Type :	Parklands Golf course
Holes :	18
Par :	72
Fairway Grass :	Kikuyu
Greens Grass :	Bent
Length :	Championship : 6938m Club : 6535m

It is arguably the **most famous course** in South Africa.

The Gary Player Country Club is acknowledged as a difficult and demanding course. Since 1981 it has been home to the Nedbank Million Dollar Golf Challenge. The course requires stamina and accuracy from players. The comparatively flat nature of the golf course is misleading - water hazards, cunningly situated bunkers and pins hidden away on kidney shaped greens makes up for the lack of gradient. The course is immaculate with generally wide kikuyu fairways and bent greens. Although this parkland course is fairly flat, the many This course also cuts through the African bush leaving the fairways with only the bushveld as a border.

This course has achieved its fame from all the great professional players who have experienced it, over the years in the "Million Dollar Challenge".

It is one of the longest courses in the world and one of the most challenging in the Southern Hemisphere, but will delight amateurs and top professionals alike.
